Forecast For Wales
Issued by Met Office Exeter
at 0400 on Wednesday 21 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A cloudy start with the odd shower, turning clear overnight.

Today:
A rather cloudy morning with some patchy light rain along the Welsh Marches and over hills. The clouds gradually lifting to give way to brighter spells for most into the afternoon. However, the odd sharp shower developing in the south. Maximum temperature 15 deg C (59 deg F).

Tonight:
Clouds completely disperse during the evening, and under clear, starry skies and light winds a harsh frost is likely in the east and central areas overnight. Minimum temperature -2 deg C (28 deg F).

Thursday:
Sunny and cold conditions to start. Temperatures soon rising to around average, if not a bit cooler than Wednesday, still feeling warm in the sunshine. Becoming breezy in the south. Maximum temperature 15 deg C (59 deg F).

Outlook for Friday to Sunday:
Remaining largely dry throughout and rather warm during the daytime, but risk of frost remains overnight under clear skies. Sunny and fine Friday. Turning hazy Saturday, and slightly cooler Sunday.
